## REASONS FOR ALLOWANCE

1. Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art an active matrix (TFTs) liquid crystal display device comprising a combination of various elements as claimed, more specifically, a connecting pattern having an open portion between the drain electrode of the TFT and the data line, the open portion electrically disconnects the drain electrode from the data line, a portion of the color filter being in direct contact with the pixel electrode, the connecting pattern is used for electrodepositing the color filter layer on the pixel electrode.

Izumi ('898) discloses an active matrix (TFTs) liquid crystal display device comprising a drain electrode, a data line, a portion of the color filter being in direct contact with the pixel electrode. However, Izumi fails to disclose 'a connecting pattern having an open portion between the drain electrode of the TFT and the data line, the open portion electrically disconnects the drain electrode from the data line, the connecting pattern is used for electrodepositing the color filter layer on the pixel electrode'.

Ohtsu ('486, '772) and Matsushima ('079) disclose method of electrodepositing a color filter layer. However, none discloses 'a connecting pattern having an open portion between the drain electrode of the TFT and the data line, the open portion electrically disconnects the drain electrode from the data line, a portion of the color filter being in direct contact with the pixel electrode, the connecting pattern is used for electrodepositing the color filter layer on the pixel electrode'.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
